

Sport Fest Windsor is proud to announce our sponsorship of Windsor's own ***Daniela Bella Favot*** in her drive for Olympic Gold in 2014. As we come together to work as a team in support for Daniela's drive for gold, we will be placing a publicity article about Daniela in our Sport Fest Windsor monthly newsletter to track her performance. As a young future Canadian Olympian, Daniela as a Sport Fest Windsor spokesperson will help us reach out to our younger generation in hopes of bringing the topic of organ donation awareness and living a healthy lifestyle into their household. You will also be able to track her schedule and performance on our website [www.sport-fest.ca](http://www.sport-fest.ca) by clicking on her link.

By learning more about organ donation through the websites of The Trillium Gift of Life Network (TGLM) and Sport Fest Windsor, Daniela will be able to reciprocate her support for our organization with a well-informed confidence that will tell others that she supports our worthy cause.

Daniela will be displaying our logo on her warm-up clothing at each competitive venue, training facilities, school, while she is out and about in the community, and whenever she attends Sport Fest Windsor promotional events. Daniela is currently being trained by our own spokesperson Jane Awad at Train With Jane [www.trainwjane.com](http://www.trainwjane.com). We are extremely excited to welcome Daniela to our team! It is our intent to bring attention to both Daniela, as a future Canadian Olympian and to the enormous benefits of organ and tissue donation. By sponsoring Daniela and building a long-term relationship of mutual support, we feel we can both benefit in our like-minded quest for gold—the Gift of Life, and Olympic Gold!
